FUNDRAISING FOR TRAA PROGRAMS

**See details*

*"Hands-on Environmentalism" is what we do ...
This is what sets the TRAA apart from other clubs and organizations. You'll find us right in the water clearing obstructions from streams, measuring returning salmonids & taking scale samples for DNA analysis, education through trout hatchery tours & stream walks, being a voice for the Thames River watershed & its inhabitants and the list goes on.*

OUR PROJECTS

FUNDRAISING FOR TRAA PROGRAMS

**See details*

The TRAA Newsletters have evolved over the years.

The first newsletters were banged out manually on a typewriter and then copied about 100 times for distribution. These initial efforts were simple (no pictures or colour!) but they did the job.

The latest versions are electronic, emailed to members and other TRAA friends. They feature nice formatting, pictures and yes, colour!

The greatest challenge over the years has been getting editions published on time (or at all!). Such is life within a volunteer organization like the TRAA; you have to focus your energies on where they are most effective and a newsletter falls further down that priority list.

Take a stroll down memory lane by browsing through the TRAA Newsletter archive ...

and if you have copies of TRAA newsletters that you don't see listed below, please forward a copy to us by email or bring it to any TRAA event.
